

Parents Feedback Form Analysis (2016-2017)

The parent's feedback was successfully circulated in the academic year 2016-2017. The form received active responses from parents whose wards are enrolled in various courses (undergraduate as well as postgraduate) in the college.

Close to ninety percent of the parents agree that the college has played an important role in shaping the personality of their ward. Such feedback instills a sense of affirmation and validation in the working style of the institution.

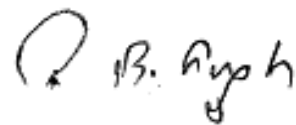

The academic discipline in terms of teaching & learning was well appreciated by most of the parents.

The infrastructure of the college is as per the expectations of the parents with some descriptive feedbacks provided in the suggestion's column.

The extra-curricular activities and the industry-academia exposure help in building a robust personality of any child. These two dimensions also received positive feedback. The majority ranked the institution to be 'Very Good' in both the said categories.

The college must act provide with growth opportunities to its students that would help them to take-off a high and long flight in their careers. In this regard, two-thirds of the respondents ranked the institution to be doing well as per their expectations.

Slightly lesser than a simple majority gave a positive response to being a part of the Parent-Teacher Association.
