

Report On Open House Session for First-Year Students

24 September 2026, Thursday

An Open House Session was conducted on **24 September 2026** to provide first-year students with an opportunity to interact with the Principal, Teacher-in-Charge, and faculty members and discuss their concerns, suggestions, and queries. The session also aimed to familiarise students with the various opportunities and support systems available at the college, thereby fostering a supportive, transparent, and student-centric campus environment.

One of the key issues discussed was the quality and affordability of food available at the college canteen and CCD, along with concerns regarding the comfort of the canteen seating arrangements. Issues relating to hostel hygiene and the availability of breakfast at the canteen were also raised, highlighting the specific needs of outstation students.

The session further clarified the requirements concerning Internal Assessments (IAs), Continuous Assessments (CAs), and attendance. Students were informed that there would be two IAs, comprising one assignment and one test, along with two CAs carrying 20 and 15 marks, respectively. The importance of maintaining the mandatory attendance requirement of **67%** was emphasised. Students were also informed that those who did not meet this requirement would be ineligible to appear for internships and placements. Additionally, students with attendance of 85% or above would be awarded five marks in their final examinations.

Regarding career development, the Training and Placements Cell was highlighted as an important resource that conducts internship drives and organises professional development sessions to prepare students for internships and placements. The role of CPD in facilitating research projects with certification was also discussed. It was noted that five research projects had recently been undertaken by the college.

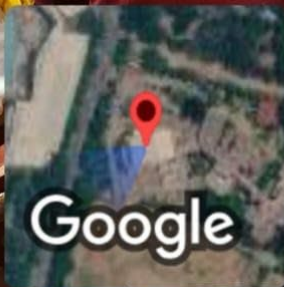

Students were encouraged to participate in sports, and information was shared about ongoing trials and cash prizes for achievements in inter-college competitions: ₹10,000 for gold, ₹8,000 for silver, and ₹5,000 for bronze. Students were also informed about the grievance email facility and the availability of college counselling services to address their concerns and provide appropriate support.

Overall, the Open House Session served as a constructive platform for interaction between students and the college administration. By addressing student concerns, clarifying academic requirements, and highlighting opportunities for professional development, research, and sports, the session reaffirmed the college's commitment to student welfare and holistic development. It also encouraged students to make effective use of institutional resources and actively participate in their academic and extracurricular pursuits.
