

Report on Research Guidance Workshop Series

The Internal Quality Assurance Cell (IQAC), in collaboration with the Centre for Professional Development (CPD) and the Research Forum of Sri Guru Gobind Singh College of Commerce, University of Delhi, organised a Research Guidance Workshop Series to enhance students' understanding of research and dissertation writing. The workshop series, specifically designed for fourth-year students, comprised four online sessions conducted via Google Meet.

The sessions were conducted by Professor Arun Mittal, a faculty member at the Birla Institute of Technology, Mesra, who shared his expertise in research methodology, data analysis, and academic writing.

The four workshops were held on 29th September 2025, 1st October 2025, 14th March 2026, and 30th March 2026. The sessions focused on key aspects of research, including research orientation, selection of research topics, literature review, research methodology, and preparation of research synopsis or project proposals.

Further, the sessions emphasised data analysis and interpretation, dissertation writing, citation practices, and academic publication. Students were also introduced to statistical tools such as T-test, ANOVA, Chi-square, and regression, along with concepts like exploratory and confirmatory factor analysis.

The sessions were interactive and included practical insights, enabling students to better understand the application of research concepts. Participants actively engaged in discussions and clarified their queries during the sessions.

Overall, the workshop series proved to be informative and beneficial, helping students develop a structured and practical approach towards research and academic writing.
