

SEMINAR COMMITTEE

**SRI GURU GOBIND SINGH COLLEGE OF COMMERCE
UNIVERSITY OF DELHI**

NATIONAL SECURITY SEMINAR

August 24, 2018

Every nation has a message to deliver, a mission to fulfill and a destiny to reach. Since we cannot build the future for the Youth, as an endeavor to build the youth for future, the Indian Army and its geopolitics Think tank, United Service Institution of India (USI), conducted the National Security Seminar on the 24th of August, 2018 at Sri Guru Gobind Singh College of Commerce, University of Delhi. The Seminar Committee of the college organized the event with a great Enthusiasm and zeal; and with online enrollments of about 800 students from colleges and institutes across Delhi NCR And more than 450 attendees, the event turned out to be a huge success.

The students were from the diverse fields of Knowledge pursuing their degree programs from Delhi University colleges such as Indraprastha College for Women, Miranda House, Hindu College, Hansraj College, Daulat Ram College, Sri Venkateswara College, Ramjas College, Rajdhani College, The Cluster Innovation Centre, Janki Devi Memorial College, Dyal Singh College, School of Open Learning, Shaheed Bhagat Singh (evening and morning) College, SGND Khalsa College, Jesus and Mary College, Satyawati College, Gargi College, Mata Sundri College, SGTB Khalsa College, Maitreyi College, PGDAV College, St. Stephen College, Aryabhata College, Deen Dayal Upadhyaya College, Kirori Mal College, Sri Aurobindo College, Ram Lal Anand College. Many Delhi NCR based institutions affiliated to the Indraprastha University, Ambedkar University, IGNOU and other private universities also sent their enthusiastic students to attend the seminar. These included NIIT, Bharti Vidyapeeth College of Engineering, Technia Institute, IINTM, IILM, AIHM, Amity, DSPSR, SGT University of Medical Science, Maharaja Surajmal Institute, Galgotia University, St. Mary Convent (Nanital), FIMT, VIPS and the likes. The students were awarded the Certificate of Participation.

The event commenced with the Shabad recital by Divinity Society of SGGSCC and a display of motivational videos to supplement the high spirit of the audience. Presided by Major General BK Sharma, head, Centre for Strategic Studies and Simulation, USI; Brigadier Sanjeev Chauhan, Senior Research Fellow, USI and Dr. Roshan Khanijo, Senior Research Fellow and Research Coordinator, Centre of Strategic Simulation, USI; the National Security Seminar turned to be a breeding ground of knowledge and opportunities for young minds to integrate service to the country with their career goals. Brigadier Sanjeev Chauhan infused a spirit of nationalism in the audience by sharing with them the might of the Indian armed forces on land, sea, and air and exhibiting the unwavering valour of the Indian Army, Indian Navy and the Air Force through Audio Video Presentations by USI. Major General attended to issues like evolution of India as a state; understanding various National Security concepts like CNP, CSP; National Security architecture, its vision, objectives, challenges; internal and external security scans; and also the current issues of concern such as Pak-China nexus in depth. With that untangled, Dr. Roshan Khanijo took over the dais to brief the novices about Certified Internship Opportunities with United Service Institution of India in diverse fields like Social Media Content, International Relations, Geo-politics, Security scan, Military, Aerospace, Maritime, and Nuclear Strategy. As the audience got intrigued with the hitherto unexplored sphere of national security, an Open House session for answering students' queries ensured that the trustees of tomorrow can eclipse the build-out of today. The college students held up their end of the deal and demonstrated miscellany of flair. The Seminar was accessorized with a Martial Arts GATKA performance by Khalsa Warriors at the onset and a dance performance by MISBA, the Western Dance Society of SGGSCC at the end.

INDIA'S GROWTH IN GLOBAL PERSPECTIVE: EMBRACING 2050

October 1, 2018

The Seminar Committee of the college organized its 2nd event as "The International Seminar" on India's Growth in Global Perspective: Embracing 2050 on October 1, 2018. The seminar was a great success and Witnessed more than 500 attendees, including professionals, faculties, research scholars and students, from University of Delhi, Guru Gobind Singh Indraprastha University, Jamia Milia University, Ambedkar University, Jawahar Lal University and other professional institutes across Delhi. The seminar witnessed Leading speakers, Mr. Sanjeev Sanyal, Principal Economic Adviser, Government of India; Dr. Martin Rama, Chief Economist, South Asia Region, World Bank and Mr. Tamal Bandopadhyay, Adviser, Strategy at Bandhan Bank Ltd. & Consulting Editor, Mint.

The seminar started with a lamp lighting ceremony by our chief guests following with the felicitation to the Guests for their time and sharing experience. Dr. Kawal Gill, the convener of the committee introduced the Theme of the seminar to the attendees. She explained the current scenario of the nation and how the Implemented government policies have affected the nation's development. Dr. Jatinder Bir Singh, the college Principal addressed the attendees with his experience to India's Growth and how effectively our guest of Speakers will help the attendees to understand the development of nation in global perspective.

The first speaker, Mr. Sanjeev Sanyal, the Principal Economic Adviser in the Ministry of Finance, Government Of India, Young Global Leader 2010 awardee by the World Economic Forum, shared the civilization of Indians All the way back from 15th century, how the Chinese technology was far better than the world's even back then. He shared how the government policies, say, eradication of slums and how the people of the nations have Reacted to this and ultimately adopted the same. His words not just gave us a future perspective but the past Development process of India. The next speaker, Mr. Tamal Bandopadhyay, the Adviser and Strategy at Bandhan Bank Ltd., recipient of Ramnath Goenka Excellence in Journalism Award, shared his views on the Past, Present and Future of the Banking Sector. He narrated the 2015 banking scenario after which all the banks grow significantly. His views On the structure of the Banking sector were indeed a light on the attendees' dark mindset about banks. The last speaker, Dr. Martin Rama, the Chief Economist for the South Asia Region, World Bank, director of One of the largest think tank – CINVE. In the seminar he shared his views, with facts the growth of India in the Changing world, the drivers of the growth of India, access to connectivity and productivity helping the nation to Grow. The attendees stayed up till the end and clear their thought so after knowing certain facts not existed earlier. The Cross question session was a session of exchange of views in all the three speaker sessions.

Singh, Head and Dean, Department of Commerce, University of Delhi, was invited as the guest of honour for the session. Mr. Singh and other session Chairs felicitated the winners of the best paper award with certificate of appreciation. The conference ended on a high note with a special mention of all the faculty members and the entire team of Seminar committee for contributing to make the dream of a successful event into a wonderful reality.

5TH BIENNIAL INTERNATIONAL CONVENTION, VIMARSH 2021

April 8 & 9, 2021

The two-day Biennial Convention on the topic “The Financial Ecosystem: Disruptions and Way Forward” was conducted virtually on 8th and 9th April 2021. The inaugural session of the two-day Convention began with a lot of zest and enthusiasm. Participants and panelists from all around the country and even abroad were a part of the enthralling event. The convention started with the welcome address by the Student Body President, Harsifat Kaur. She extended a warm welcome to everyone present and gave a brief introduction of the College. Her introduction was followed by an address by Dr. Kawal Gill, Convenor, who thanked everyone for their support. Dr. Gill also shed some light over the themes of the conference which are “Decentralised Finance”, “Stock Market Bubble”, “Financial Technology Revolution” and “Sustainable Finance” and shared her thoughts on the same. Thereafter, Principal of our College, Dr. Jatinder Bir Singh greeted the audience and heartily welcomed all the honorable guests, panelists, and moderators on behalf of the college. He also shared his opinions on the topic of the webinar and shed light on different examples of how disruptions and other innovations happening in the financial world are making us robust. He further cordially welcomed the chief guest for the session, Padma Bhushan Shri KV Kamath. Dr. Gill felicitated Shri KV Kamath with a virtual bouquet as a token of gratitude and hoped to host him some time in the future. She further introduced the Moderator for the session Mr. Siddharth Tiwari who was honored and delighted to be sharing space with the Padma Bhushan Awardee.

The session with Shri KV Kamath started with Mr. Siddharth asking him several relevant questions in today’s scenario, his views on finance as a career, economy’s growth pace and how pandemic has proved to be a disruption for the finance sector. Shri Kamath also enlightened the audience with, how human capital is the key driver of any economy, that jobs can never exhaust and how “Digital Supercycle” has become quite an important area of growth for an economy and also emphasized on the dropping cost of technology and how it will aid in increasing business. The session concluded with a question-answer round with Shri Kamath answering the queries of the participants.

Next in the inaugural session was the keynote address by Prof. Arindam Banik, Distinguished Professor and ACC Chairperson. He was felicitated by Dr Rekha Sharma, the Coordinator for the session with a virtual bouquet as a token of thanks. He shared his insights on the topic through a wonderfully framed presentation and explained how evolution of technology is the main driver for disruption, how brand breaking is aiding in economic revival and lastly the future of banks. The discussion ended with a question answer round and that marked the end of the inaugural session.

Session 1 for today’s symposium was on the subject of Decentralized Finance commonly acronymed as DeFi. The session was intuitively conducted by cognizant speakers Mr. James Preston, Executive Editor, Global Crypto Content and Mr. Kunal Nandwani, Co-founder & CEO uTrade Solution and was moderated by Mr. Siddharth Tiwari. Dr. Rekha Sharma felicitated all three guests with a virtual bouquet as a token of gratitude for taking out the time to be a part of the convention. The discussion commenced with Mr. Nandwani provides a deep insight into the evolution of finance and how it eventually led to the bedrock of the Blockchain technology which paved its path for the Bitcoins in 2009 following the Lehman Brothers Crisis. The speakers dived into the several reasons for the introduction of the ICO (Initial Coin Offering). Majoring amongst them, was the distrust of the common investor in the then elected Governments of various countries which made them not to rely on central financial intermediaries and strengthened their faith in holding their assets in a more transparent way.

The session was made interesting by making the audience more compatible with the concept by citing day to day examples which kept the listeners hooked to the discussion. The speakers also talked about the challenges and the hurdles that DeFi has and can face in the near future and its significance on the economic upfront. The whole talk brimmed with quite interesting perceptions of both the orators while replying to the various questions asked by the moderator, Mr. Tiwari on the behalf of the student community. Concluding the discussion, the speakers inspired students to dream of more upcoming, innovative ways of reshaping the finance sector as young minds are the future thinkers and the future of money and transactions lay in their hands.

Session 2, themed “The Stock Market Bubble”, was opened by Dr. Kajleen Kaur as the coordinator of the discussion. She introduced the panelists and moderator and highlighted their considerable experience and expertise in the field of financial literacy. She extended a warm welcome to both the speakers, Mr. Viraj Kulkarni and Mr. Kunj Bansal and handed over the proceedings of the session to the session’s moderator, Mr. Nithin Sasikumar. Mr Sasikumar highlighted the evergreen theme of the Stock market and referred back to last year, March 2020 when the Indian Stock markets were in a deep hit and the economy was in lockdown and there were even calls for the stock market to be shut. But cut to today, no one seems to remember that at all, the Sensex is at 100%. Session 2 was in the format of an interview where Mr. Sasikumar asked several pertinent questions about the stock market, what excited the speakers most about the capital market, how both of them landed in the finance ecosystem and several other relevant questions. Both the speakers shared interesting insights, views, thoughts and stories on the same and kept the audience engaged. Mr. Sasikumar also gave light to the stock market bubble and enquired Mr. Viraj if the stock market is in a bubble or not. To which, according to him, was not. On the other hand, Mr. Kunj, addressed that, “one who is the man of the market, they are not going to pick the bubble themselves and his answer is no different from that of Viraj. However, whether there is a bubble or not, one has to look at the market movement”.

Day 1 of the Convention finished with a brainstorming session, the goal of which was to identify, if the stock market is in a bubble or not, both the panelists posed that the stock market may not be in a bubble but we may get there maybe. Some important questions and queries were raised during the session by the participants that were attended by the speakers enthusiastically. Lastly, Dr. Kajleen thanked the panelists and the moderator for their valuable time and the Day 1 of Convention ended with a formal vote of thanks.

Opening session of day 2 of the two-day Convention conducted virtually began with an equal zest as the previous day. Many participants and panellists joined from around the country to be the part of an astounding event. The convention started with the welcome address by Dr. Kawal Gill, Convenor, who extended a hearty welcome to everyone present. Thereafter, Principal, Dr. Jatinder Bir Singh greeted the audience and welcomed all the honourable guests, panellists, and moderators on behalf of the college. He also shared his insights on the topics for the day’s session which were “Fintech” and “Sustainable Finance”. The session continued further with a video address by the Guest of Honour, Prof. Barry Eichengreen. In his video address, he shared his thoughts on bank regulation for platform economy through a presentation. He discussed varied things ranging from how the financial world is changing rapidly, the rise in platform-based business models, its players, activities involved & technology used. Dr. Kawal Gill thanked Prof. Barry Eichengreen for his video address and the efforts he put in to make it easily understandable to the audience. Followed by this, Ms. Melissa Frakman joined in for the keynote session and shared her insights on “India’s Fintech Revolution” through an enthralling presentation. Ms. Frakman explained how there is an unprecedented revolution in digital services in India, about the pace at which it is growing and what the Indian economy can gain from the revolution. Lastly, she took up several queries of the participants and that marked the end of the session.

The session was made interesting by making the audience more compatible with the concept by citing day to day examples which kept the listeners hooked to the discussion. The speakers also talked about the challenges and the hurdles that DeFi has and can face in the near future and its significance on the economic upfront. The whole talk brimmed with quite interesting perceptions of both the orators while replying to the various questions asked by the moderator, Mr. Tiwari on the behalf of the student community. Concluding the discussion, the speakers inspired students to dream of more upcoming, innovative ways of reshaping the finance sector as young minds are the future thinkers and the future of money and transactions lay in their hands.

Session 2, themed “The Stock Market Bubble”, was opened by Dr. Kajleen Kaur as the coordinator of the discussion. She introduced the panelists and moderator and highlighted their considerable experience and expertise in the field of financial literacy. She extended a warm welcome to both the speakers, Mr. Viraj Kulkarni and Mr. Kunj Bansal and handed over the proceedings of the session to the session’s moderator, Mr. Nithin Sasikumar. Opening session of day 2 of the two-day Convention conducted virtually began with an equal zest as the previous day. Many participants and panellists joined from around the country to be the part of an astounding event. The convention started with the welcome address by Dr. Kawal Gill, Convenor, who extended a hearty welcome to everyone present. Thereafter, Principal, Dr. Jatinder Bir Singh greeted the audience and welcomed all the honourable guests, panellists, and moderators on behalf of the college. He also shared his insights on the topics for the day’s session which were “Fintech” and “Sustainable Finance”. The session continued further with a video address by the Guest of Honour, Prof. Barry Eichengreen. In his video address, he shared his thoughts on bank regulation for platform economy through a presentation. He discussed varied things ranging from how the financial world is changing rapidly, the rise in platform-based business models, its players, activities involved & technology used. Dr. Kawal Gill thanked Prof. Barry Eichengreen for his video address and the efforts he put in to make it easily understandable to the audience. Followed by this, Ms. Melissa Frakman joined in for the keynote session and shared her insights on “India’s Fintech Revolution” through an enthralling presentation. Ms. Frakman explained how there is an unprecedented revolution in digital services in India, about the pace at which it is growing and what the Indian economy can gain from the revolution. Lastly, she took up several queries of the participants and that marked the end of the session.

Day 2 of session 3 brought into the limelight the buzzword “Financial Technology” which has now become a core word these days. To discuss this aptly, we had a panel of extremely cognizant players of this arena, Mr. Gaurav Seth, Vice President & Head-Business & Growth, Paytm Money and Ms. Monica Jasuja, Vice President Comviva. The session was moderated by Mr. Manvendra Prasad, Advisor Public Policy, Chase Avian Communications. Ms. Jasuja commenced the discussion by sharing her perspective on the evolution of the cool acronym ‘FinTech’ which isn’t as new as it seems and counted its establishment back to more than 6 decades which also coincides with the development of various credit offering systems. She reiterated the importance of Fintech in recent times, and how it is revolutionizing the Indian market with the arrival of digital wallets back in the early 2010s. This evolution eased the payment system in India turning all eyes on Financial Technology and making it a star word. She gave the credit to the RBI’s vision for this financial inclusion. On this Mr. Seth added his insights on how fast pacing the Indian payment system has been, according to the statistics which depicted India as a country 4-5 years ahead of the US payment system. He made the audience aware of the friction faced by several e-commerce companies amidst the payment section which is quite complex from the rear-end. He brought into focus the importance of UPI (Unified Payment Interface) in our country. According to him, the agility of the banks has resulted in slow locomotion of transactions which have resulted in a non-satisfactory customer experience which gave an impetus to Financial Technology. He also touched upon the challenges that Gulf management and consultancy had to face in the Indian ecosystem to digitize and discussed the needs and benefits of wealth management for the Indian Economy and the psychological trust factor associated with it because of the longer gestation period, which drives the Indian investors. Concluding, Ms. Monica very vitally brought to the fact that India has been one of the top countries majoring in digital payments in the COVID scenario; the maximizing number of transactions being conducted by the senior citizens; emphasizing, how the roots of fintech are getting deeper in the country.

During the Question-and-Answer session, both the orators emphasized various elements edging the Financial Technology hub. They motivated the audience to explore their preferred fields and options. “Persistence and curiosity”, they said “were the keys to leveraging the career in this sector”. Mr Prasad, an excellent moderator, made the session more gripping with his style and knowledgeable insights. The session ended on an interesting note made by Ms. Monica that, " The patriarchal society and limited resources are halting growth of more independent women finance managers".

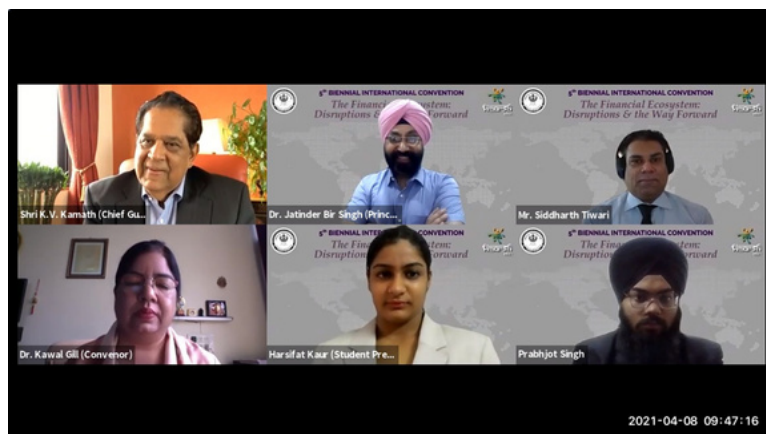

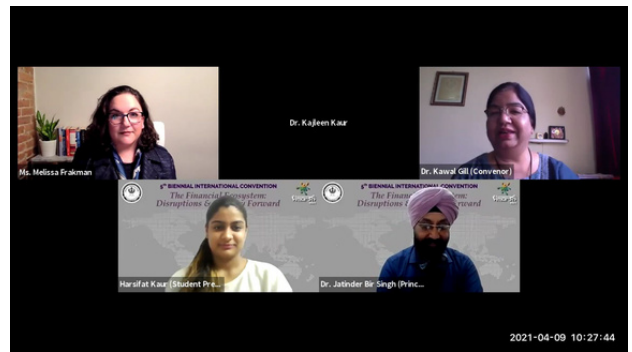

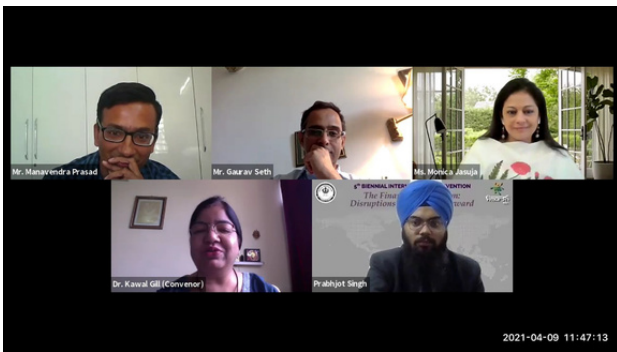

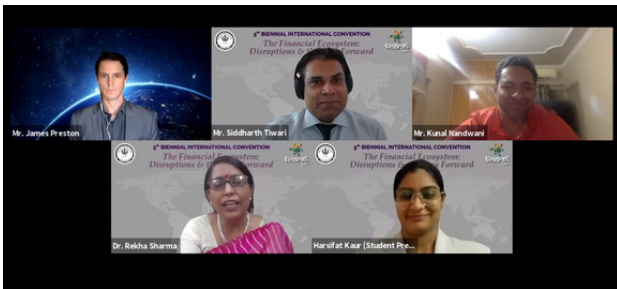

Session 4 on day 2, themed Sustainable Finance, was opened by Dr. Rekha Sharma. She pointed out that the purpose of the discussion was to explore different strategies that are placed at the global and national level and even at the micro-level for Sustainable Development and acquainted the audience with the term ‘sustainable finance’. She extended a warm welcome to the panellists, Dr. Ajit Ranade and Mr. Saurabh Srivastava; and handed over the proceedings of the session to the moderator, Ms. Harmeet Kaur.

The Guest Speaker Mr. Saurabh Srivastava commenced the session by stating that we are very far away from getting to where we need to be. He added that the COVID pandemic has shown us that governance impact, environmental impact and social impact will be the three most significant criteria that are going to affect the financial world. To Ms. Harmeet’s question about the financial products that up-lay the role and how certain products are aiming at improvement across the globe, Mr. Saurabh stated that the biggest bearing he had witnessed was in the impact funds as far as the environment was concerned and its inclination towards the social aspects, likely into microfinance companies that talked about grass-root financing. He also lay emphasis on governance of every company by stating an instance of SSE in the US which has made sure that the 90% of SMP 500 companies are to put a note in financial statements about ESG.

On this Dr. Ranade questioned Mr. Srivastava that by when would these buzz terms turn into core terms according to him. Mr. Saurabh addressed by saying that he won't profess on this as of now but these words are to become extremely important if the Investors start demanding it to be in every company's disclosure norms and secondly, the government has to wake up and make metrics to measure the ESG as soon as possible. Dr. Ranade too added on this that 10 years down the line the ESG kind of stocks and mutual funds will become more mainstream and the shift in financing as of now had already begun. The moderator interrogated Dr. Ranade out of curiosity, as to where he sees the role of the private companies and how can these companies implement the changes by not hampering the revenue extraction of theirs too. He replied that the government policies have a huge role to play in all of this and said that India had passed a company law in 2013 and emphasising that India is the only country in the world that spends 2% of profit after tax on CSR.

Dr. Ajit Ranade addressed that the younger generation is quite responsible and few years down the line even the private companies will take the Corporate Responsibility part seriously. The session ended with brainstorming questions asked by the students and answered by the man himself who is popularly known in the finance world, Dr. Ajit Ranade.

The two-day convention was concluded by Dr. Kawal Gill with a Vote of Thanks. She thanked all the speakers, guests and participants for making the convention a huge success with their presence. She also marked the dedicated efforts put in by the student and faculty team to make this event possible.

6TH BIENNIAL INTERNATIONAL CONFERENCE 2022

March 10 & 11, 2022

Sri Guru Gobind Singh College of Commerce, in association with Department of Commerce, University of Delhi, organized 6 th Biennial International Conference on March 10 and 11, 2022 in hybrid mode. The conference themed 'Financial Ecosystem: Disruptions and the Way Forward' saw the participation of distinguished academicians, scholars, researchers and experts from across the world. Prof. Kawal Gill, Conference Coordinator in her inaugural note delineated how disruptive innovations like Financial Technology (FinTech) and Decentralized Finance (DeFi) are revolutionizing the global financial landscape forcing the traditional firms to review their outdated paradigms.

Prof. Nirvikar Singh, Distinguished Professor of Economics, University of California in his plenary address lauded the promise of financial inclusion that FinTech holds out, yet he cautioned about the concomitant threat of illegal transactions and monetary instability. Ms. Anita Patnaik, General Manager, Department of Payments & Settlement Systems (DPSS), Reserve Bank of India, explained how digital disruption has helped to iron out information asymmetry ensuring greater transparency and personalized user-interface.

The principal of the college, Dr Jatinder Bir Singh, extended gratitude to the participants and asserted that humans have the capability to adapt to technology but it is important to put it to efficient use. Prof. Amit Kumar Singh, Conference Coordinator & Professor, Department of Commerce, University of Delhi hailed the institutional collaboration between university and the college for the insightful conference.

Prof. R. K. Singh, Head and Dean, Department of Commerce, University of Delhi in his opening remarks suggested that if this new ecosystem leads to better digital inclusivity, it also widens the digital divide. Prof. Singh pointed out the devastating possibilities of our over-dependence on technological disruptions as it increases our vulnerability rather than efficiency. Prof. Manmohan Lal Agarwal, Adjunct Senior Fellow in Research and Information Systems in Developing Countries, the keynote speaker of the event, discussed how international and domestic financial systems have evolved over last few decades. The chief guest for the conference, Prof. Furqan Qamar, Professor of Management, Centre for Management Studies, JMI, enunciated that it is human to find certainty in a chaotic world, hence we constantly disrupt.

After the inaugural session, eight parallel plenary sessions- spread across two days- witnessed presentation of over forty research papers by scholars. The sessions explored the multi-disciplinary dimensions of Banking & NBF; The Financial Technology (FinTech) Revolution; Decentralised Finance (DeFi) And Virtual Currency; The Stock Market Basics; Sustainable Finance; The Stock Market Bubble; and Pandemic and Economic Recovery. Each session was chaired by eminent scholars and esteemed faculty members of universities from across the country and abroad. The conference papers will be published in six international journals of high repute.

In the valedictory session, chief guest Prof. V. K. Shrotryia, DSE, University of Delhi, succinctly summed up the key observations and concerns about symbiotic relationship of technology and finance. Best paper awards for each session adjudged by session chairs were announced. A vote of thanks was extended to all the participants and the banking partner for the event, Punjab and Sind Bank.
